---

## Summary

Undergraduate student of an informatics engineering department, Ahmad Dahlan University. Beginner UI/UX Designer with interest develop a prototype of a digital product

---

## Education

### Informatics Engineering

Ahmad Dahlan University • Bantul, Yogyakarta

- Bachelor's Degree in Computer Science, 2018 – Current, GPA: 3.91 / 4.00.
- My thesis research focused on the double diamond method in the development of a mobile application prototype. March 2021 – Current.

### Relevant Coursework & Academy

- Human-Computer-Interaction
  - Software Engineering
  - UI/UX Designer Academy by Jobhun
  - UX Researcher Academy by Jobhun
- 

## Work Experience

### UI Designer (Intern)

Gramasurya • Bantul, Yogyakarta

03/2021 - Present

- Researched and identified problems in the complex production of digital printing
- Created a high-fidelity wireframe of production information system at gramasurya digital printing

### Lab Assistant

Informatics Engineering, Ahmad Dahlan University • Bantul, Yogyakarta

03/2021 - Present

- Responsible for artificial intelligence practicum activities
- Teaching artificial intelligence material to practitioners
- Checking and assessing student's report work

### Full Stack Developer (Intern)

Bintan Tourism Institute • Bintan, Kepulauan Riau

10/2020 - 12/2020

- Develop a hotel management system for room division's learning simulations using adminLTE template and php codeigniter3 framework
- 

## Skills and Tools

- User Research
  - Wireframing
  - PHP
- Visual Design
  - Figma
  - Adobe XD
- Usability Testing
  - Microsoft Office
  - HTML/CSS
- 

**Languages**

- English
- Bahasa Indonesia
